

## ROCKEFELLER'S GIFT IS BLOW TO GERM

Appropriation May Be Sufficient to Stamp Out Hook Worm Plague.

PERSONS AFFECTED  
NUMBER 2,000,000

Large Part of Money Will Be Expended at Once in Educational Propaganda.

Surg. Gen. Walter L. Wyman, of the Public Health and Marine Hospital Service, and Dr. Charles W. Stiles, chief of the division of zoology in that service, are elated at the gift of \$1,000,000 made by John D. Rockefeller for the eradication of the hook worm in the South. The hook worm, which has been designated as the "microbe of laziness," the "lazy bug," was discovered by Dr. Stiles in his work in the public service, and this offer of the oil magnate comes as a vindication of the stand he has taken regarding the parasite.

When Dr. Stiles made his first announcement as to the discovery of the hookworm and its inroads into the health of the poor people of the South, the newspapers played it up, and the people of the country laughed long and hard at the idea of there being a laziness microbe. But other scientists have been studying the worm, and its existence is absolutely established.

Recognize Authorities.

"The Rockefeller board for the eradication of this parasite should work in connection with the State and local authorities in the South in carrying out a campaign of education," Dr. Wyman said today.

The announcement of the Rockefeller gift for the eradication of the hook worm came when the board of twelve physicians and scientists and philanthropists announced their intention of accepting positions on the board and carrying out the ideas of the giver.

Members of Board.

The members of this board are:

Dr. William H. Welch, professor of pathology in Johns Hopkins University;

## VISITORS FROM JAPAN TO WITNESS DRILL

Special Exhibition Will Be Given for Benefit of Commercial Commission at Fort Myer on November 2. Other Entertainment for the Board.

Although the regular drills in the riding hall at Fort Myer will not begin until the latter part of November, it was announced today that a special drill will be given November 2 for the entertainment of the Japanese commercial commission.

The drill will commence at 10 o'clock, and will be given at the request of the Washington Chamber of Commerce. Those who may desire seats should make application in writing to the adjutant at Fort Myer.

Arrangements are now completed for the entertainment of the commission. The tentative program adopted several weeks ago has been but slightly altered. Arriving at Union Station at 8 o'clock, November 1, the commission will be welcomed by representatives of the Government, the Washington Chamber of Commerce, and the Board of Trade. The morning will be spent visiting places of interest. At 2 o'clock the party will be taken to the Japanese embassy, where they will visit the Capitol and the Congressional Library, and at 10 o'clock will be entertained by the Commercial Club.

Tuesday's program of events, in addition to the Fort Myer drill, includes further automobile sightseeing, concluding with a reception in the evening at the Corcoran Art Gallery.

Wednesday the visitors will celebrate the birthday of the Emperor of Japan at the Japanese embassy. They will leave early Thursday morning to conclude their tour of American cities.

finer folds of the intestines and sucks the blood. Children so attacked seem to have a craving for dirt and they eat clay with as much relish as healthy children eat candy.

The board appointed by Mr. Rockefeller will at once begin its campaign against the worm. A large part of the money will be spent in educational propaganda.

PERMANENT PASTOR

SELECTED SHORTLY

Independent Lutheran Church Has

Several Candidates Under

Consideration.

The newly elected officers of the Independent Lutheran Church announced today that a permanent pastor will be selected by their congregation inside of the next two months.

Several Lutheran preachers who are powers in their present churches are under consideration, and a call will be extended to one of them. The pulpit will be occupied next Sunday by the Rev. George Scholl, of Baltimore.

The permanent officers of the church were elected last night, as follows:

Elders, Lucien D. Alden, Charles S. Sloane and Henry L. Barrill; deacons, A. Y. Leach, Jr., W. L. Rhoads, I. B. Dodson, F. C. H. Wurdeman, Walter Locke and L. E. Hoover; trustees, the Rev. G. H. Slaybaugh, H. F. Lerch, sr., and Joseph Zimmermann.

2,000,000 Are Afflicted.

Investigations made by Dr. Stiles and others among the poor whites of the South lead them to believe that at least 2,000,000 persons are afflicted with this parasite, which has sapped their energy and left no hopes in their breasts save for a bare existence. Children as well as grown people are attacked by the worm, which fastens itself to the

## HEROIC RESCUERS ARE KILLED IN MINE

Manager and Two Others Die While Trying to Save Twenty-two Miners.

DARREN, Wales, Oct. 29.—Twenty-two miners are entombed in the wrecked shaft of the Rhymney Iron Company's mine here, following an explosion that occurred when forty-eight of the mining crew were entering the shaft.

Three of a rescue party, attempting to force their way into the mine to the rescue of the imprisoned men, were caught beneath a mass of earth that, loosened by the explosion, slid into the shaft. They were killed, and it will be almost impossible to recover the bodies.

The manager of the mine, Bowen, was one of the rescuers killed.

Eighteen of the first crowd caught in the wreck succeeded in fighting their way out before the entrance was closed by a sliding mass of debris, and a rescue party saved eight more by penetrating the Rhymney mine through a tunnel from another, two and a half miles away.

After hours of work, rescuers succeeded in digging out of the choked mine shaft eleven bodies, including that of Mine Manager Bowen. When these were recovered all hope for the survival of any of the twenty-two miners caught beneath the slide that followed the explosion was given up.

LAKE COMMERCE

CONTINUES STEADY

Lake commerce during September, as measured by the volume of shipments in domestic trade from all lake ports, continued practically at the same high rate as during the preceding month, according to a bulletin issued by the Department of Commerce and Labor.

The total shipments, as reported to the Bureau of Statistics, amounted to 12,527,865 net tons, compared with 9,458,605 net tons during September, 1908, and 11,137,927 net tons during September, 1907.

There are indications that both the grain and coal movements may be hampered somewhat by reason of the growing car shortage, and the heavy demand for vessel tonnage by ore shippers.

## STRICT POLICE ORDER FOR THE HALLOWEEN

Major Sylvester Instructs Officers of Force That Under No Condition Shall Indignities to Citizens Be Allowed During Celebration Here Tomorrow.

"The throwing of flour, removal of signs, use of tick-tacks and other indignities will not be permitted," says Major Sylvester in his Halloween orders to the police force.

This means that the small boy who tries to observe tomorrow evening in regular old-time Halloween style is likely to find himself in the clutches of the law. A special detail of bluecoats, as well as plain clothes men, will be on duty in sections of the city, and will see that the police regulations are not violated by any would-be celebrators.

Extra bicycle men will be on duty in the suburbs, and will make every effort to keep down complaints.

The police are determined there shall be no destroying of property tomorrow night, and anyone caught carrying away a gate, lamp post, or door mat will be arrested and tried in the Police Court next Monday.

Beast shooters have been tabooed, and

about the only thing the small boy can do tomorrow night and not violate the law will be to go to a party and hob for apples and play a few games.

"Boys who fail to appreciate the warning," says the major, "should be taken to their parents, but those of older years, and any who are guilty of flagrant violations of law will be sent to the House of Detention."

SPARK CAUSES FIRE.

Sparks from a chimney set fire to the shingle roof of the home of Thomas F. Smith, 1906 Thirty-fifth street northwest, an early hour this morning, and before the flames were extinguished most of the roof was burned. The damage is estimated at \$100.

DYNAMITERS GET \$4,000.

COLORADO SPRINGS, Colo., Oct. 29.—Robbers dynamited the safe in the postoffice at Colorado City today, and escaped with \$4,000 worth of stamps.

## NOW SOLD IN AMERICA

In Less Than Three Years, Parisian Sage, the Splendid Hair Tonic, is Sold All Over America.

There is a reason for the phenomenal sale of Parisian Sage in the United States during the past three years.

And the reason is plain to all: Parisian Sage does just what it is advertised to do.

Ask Henry Evans about it, he will tell you that he rigidly guarantees it to cure dandruff, stop falling hair or itching scalp in two weeks or money back.

There is no reason whatever why any man or woman should fail to take advantage of the above generous offer.

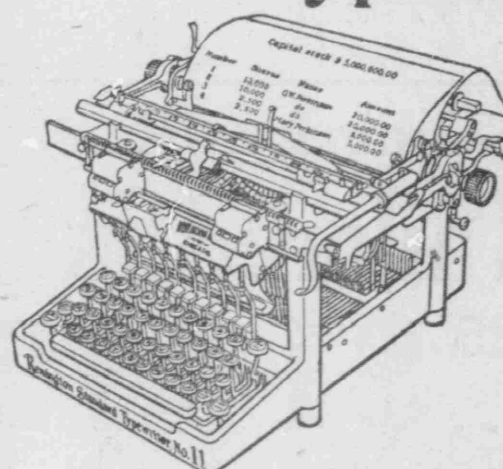

But one thing that has made Parisian Sage so famous is its peculiar power to turn the harsh, unattractive hair that many women possess into luxuriant and radiant hair in a short time. Women of refinement the country over are using it and it never disappoints. Read this letter:

"I procured Parisian Sage and found that it was a great hair tonic and cleanser. I have used other preparations but Parisian Sage cleaned the scalp, stopped all irritation, made my hair fluffy, silky and left no trace of stickiness as some other hair tonics had."

Mrs. Sarah Sanderhoff, 1046 N. Washington St., Orono, Mich., June 2, 1909.

Sold by leading druggists everywhere and in Washington by Henry Evans for 50 cents a large bottle. The girl with Auburn hair is on every package; mail orders filled, charges prepaid, by the American makers, Groux Mfg. Co., Buffalo, N. Y.

## Remington Typewriter Sales
